Professional Summary

Backend Developer with hands-on experience in Python, Django, and Django REST Framework. Experienced in building REST APIs, database-driven applications, and authentication systems. Actively learning AI and modern frontend technologies to deliver full-stack solutions.

Technical Skills

Languages: Python, JavaScript, SQL
Frameworks: Django, Django REST Framework
Frontend: HTML, CSS, Bootstrap, React
Databases: PostgreSQL,
Tools & Concepts: Git, GitHub, Postman, REST APIs, JWT, OOP

Soft Skills

Communication, Presentation Skills, Team Leadership

Internship Experience

Python Full Stack Developer Intern

Bridgeon Solutions — 10 Months

Worked on full-stack web applications using Python, Django, and DRF, focusing on backend API development, database integration, authentication, and frontend coordination in a team-based environment.

Projects

EDUSTREAM (College Project)

Python, Django

Campus management system for handling student and staff activities with academic tracking. Introduced an AI-based concept for automated staff feedback using student emotion analysis. Frontend built with HTML and CSS.

Technox

Python, Django, DRF, React

E-commerce platform for mobile phones and laptops featuring product browsing, wishlist, cart, and secure Razorpay payment integration. Backend APIs built with DRF and frontend developed using React and Tailwind CSS.

MovieVerse

React (Frontend Only)

Movie discovery platform displaying listings, posters, OTT availability, and filters. Backend services and personalized recommendations using machine learning are planned for future development.

Education

Bachelor of Computer Applications (BCA)

University of Calicut

2022 – 2025
